Key Skills

- C
- C++
- Core And Advance Java
- JDBC
- Servlets
- HTML
- Javascript
- Objectoriented Programming (OOP)
- MySQL
- Operating Systems
- Problem Solving
- Critical Thinking
- Communication Skills
- Attention To Detail

Profile Summary

Engineering student pursuing B.Tech in Information Technology from Medi-Caps University, Indore, Madhya Pradesh.

Proficient in the basics of programming languages such as C, C++, HTML, and JavaScript, with a solid understanding of Core and Advanced Java concepts, including Object-Oriented Programming (OOP).

Well-versed in Data Structures and Algorithms, MySQL, JDBC, and Servlets. Familiar with development tools and platforms like NetBeans and Git.

Strong problem-solving abilities with keen attention to detail, and a collaborative mindset for effective team work.

Education

Projects

Student Management System (Login Module)
5 Days

Developed a GUI-based Login System as part of a Student Management application using Java Swing for the front-end and JDBC for database connectivity. The system securely authenticates users by verifying login credentials stored in a MySQL database.

Implemented input validation, error handling, and responsive UI components for a better user experience.

This project helped reinforce understanding of Java GUI development, database operations using JDBC, and secure coding practices.

Web-Based Login & Registration System

5 Days

Designing and developing a web-based Login and Registration system using HTML and JSP for the front-end. The project aims to integrate Java Servlets for server-side processing and JDBC for database connectivity.

The login module will authenticate users based on data stored in a MySQL database, while the registration module will store new user details securely.
